Subject: RE: Process data

Dan,

Regarding the canister sample Scott collected on 1/30...the sample was collected at 14:40 and called EWT-10. The PID at EWT-10 was 38 ppm. Below are his actual field notes.

14:45 High VOC with PID at EWT-10, 38ppm
Took canister sample
At 14:40 called ID EWT-10

Also, attached is the time synchronization information you requested.

Best regards,
Chris
